EI file up-to-date Due in 13 days 🔴 high effort 😐 moderate

Documentation for Ideathon Due in 5 days 🔴 high effort 😐 moderate

✨ BUILD MY SCHEDULE

Commitments & Blocked Time

Tell the AI what's already taken up in your schedule — classes, meals, family time, gym, anything. Be as conversational as you like. The AI will read this and plan only around your free windows.

Example: "I have college from 9 to 1 every weekday. Lunch takes me till 2. Evenings after 8pm I don't work. Wednesday afternoon I have a lab session from 2 to 5. Weekends I'm mostly free but Sunday morning is for family."

For today I just want to focus on information findings and gathering infor
From Mondays, I will eat breaks from 9am-10am, 1:30pm-3:00pm, 7:30-8:30pm.
Tuesdays and Wednesdays I have college and travelling from 7am-5pm.
Thursday I am free the entire day. follow same block times as monday.
My sleep time is frmo 9pm-3am. I want to follow that only

✓ Got it — the AI will plan around your commitments

✨ Build My Schedule

Your Schedule

This schedule is very ambitious, with tight deadlines for 'Math Manual', 'BME PPT', 'Chem PPT', and 'BEE manual' requiring significant early morning and evening dedication, especially on college days. Adhering strictly to the 3 AM wake-up and 9 PM sleep schedule is critical to maintain energy for the high-effort tasks. Consistent adherence to the 10-minute breaks will be essential to avoid burnout.

⚠ The 3 AM wake-up time demands strict sleep discipline (9 PM bedtime).

⚠ Tuesday and Wednesday have very limited productive hours due to college/travel, requiring intense focus in the available windows.

⚠ All tasks are 'high effort', so each 45-minute session is intended for concentrated progress, not necessarily completion.

⚠ Ensure actual rest during 10-minute breaks to maintain productivity throughout the day.

Sunday, 15 March

7:00 PM **Infor for BME PPT** 45 min

💡 Start gathering key information for the presentation.

7:45 PM **Break** 10 min

💡 Stretch and relax before the next session.

7:55 PM **Infor for Chem PPT** 45 min

💡 Begin research for the chemistry presentation.

Monday, 16 March

3:00 AM **Math Manual** 45 min

💡 Start strong on this high-priority task. Deadline is tomorrow!

3:45 AM **Break** 10 min

💡 Quick stretch and hydration.

3:55 AM **Math Manual** 45 min

💡 Continue making progress, focus on a difficult section.

4:40 AM **Break** 10 min

💡 Recharge before the next session.

4:50 AM **BEE manual** 45 min

💡 Kick-off with initial research or outline key sections.

5:35 AM **Break** 10 min

💡 Short break to maintain focus.

5:45 AM **Infor for BME PPT** 45 min

💡 Continue information gathering, aim for critical data points.

6:30 AM **Break** 10 min

💡 Prepare for the next task.

6:40 AM **Infor for Chem PPT** 45 min

💡 Add more details to your research, focus on data analysis.

7:25 AM **Break** 10 min

💡 Stretch before the next sprint.

7:35 AM **Documentation for Ideathon** 45 min

💡 Start outlining key sections and core ideas.

8:20 AM **Break** 10 min

💡 Get ready for your scheduled morning break.

10:00 AM **Math Manual** 45 min

💡 Target completion or major progress for tomorrow's deadline.

10:45 AM **Break** 10 min

💡 Grab a snack.

10:55 AM **Documentation for Ideathon** 45 min

💡 Flesh out the initial outline with specific details.

11:40 AM **Break** 10 min

💡 Quick mental reset.

11:50 AM **BEE manual** 45 min

💡 Focus on a specific section or concept for the manual.

12:35 PM **Break** 10 min

💡 Prepare for your longer break.

3:00 PM **Enhance app** 45 min

💡 Begin by identifying areas for improvement or a new feature.

3:45 PM **Break** 10 min

💡 Short break.

3:55 PM **Read about react.js and perfect it** 45 min

💡 Dive into a specific React topic or tutorial.

4:40 PM **Break** 10 min

💡 Stretch and relax.

4:50 PM **Work On BPT web** 45 min

💡 Start with a manageable sub-task, e.g., setting up a component.

5:35 PM **Break** 10 min

💡 Quick refresh.

5:45 PM **EI file up-to-date** 45 min

💡 Begin organizing and updating recent information.

6:30 PM **Break** 10 min

💡 Wind down before your evening break.

6:40 PM **Infor for BME PPT** 45 min

💡 Review and refine your gathered information, identify missing parts.

Tuesday, 17 March

3:00 AM **Math Manual** 45 min

💡 CRITICAL: Finish any remaining sections or review for submission today.

3:45 AM **Break** 10 min

💡 Stay focused, you're almost done with this task!

3:55 AM **Math Manual** 45 min

💡 CRITICAL: Final review and proofreading of the entire manual.

4:40 AM **Break** 10 min

💡 Quick mental break before the next push.

4:50 AM **Math Manual** 45 min

💡 CRITICAL: Address final adjustments and prepare for submission.

5:35 AM **Break** 10 min

💡 Transition to your next priority.

5:45 AM **Infor for BME PPT** 45 min

💡 Consolidate and organize gathered information for tomorrow's deadline.

5:00 PM **Infor for Chem PPT** 45 min

💡 Review your research and identify gaps for tomorrow's deadline.

5:45 PM **Break** 10 min

💡 Stretch after college/travel.

5:55 PM **BEE manual** 45 min

💡 Continue working on specific sections, aiming for progress.

6:40 PM **Break** 10 min

💡 Stay hydrated.

6:50 PM **Documentation for Ideathon** 45 min

💡 Add details to specific sections of the document.

7:35 PM **Break** 10 min

💡 Short break before the final session.

7:45 PM **Read about react.js and perfect it** 45 min

💡 Explore a practical example or tutorial on React concepts.

Wednesday, 18 March

3:00 AM **Infor for BME PPT** 45 min

💡 CRITICAL: Finalize and prepare content for presentation. Deadline today!

3:45 AM **Break** 10 min

💡 Quick mental stretch.

3:55 AM **Infor for BME PPT** 45 min

💡 CRITICAL: Review thoroughly for any last-minute changes or refinements.

4:40 AM **Break** 10 min

💡 Shift focus to the next deadline.

4:50 AM **Infor for Chem PPT** 45 min

💡 CRITICAL: Ensure all information is complete and accurate. Deadline today!

5:35 AM **Break** 10 min

💡 Final push for the PPTs.

5:45 AM **Infor for Chem PPT** 45 min

💡 CRITICAL: Perform a final check of the presentation content.

5:00 PM **BEE manual** 45 min

💡 CRITICAL: Complete any outstanding sections for submission today!

5:45 PM **Break** 10 min

💡 Stretch and relax after college/travel.

5:55 PM **BEE manual** 45 min

💡 CRITICAL: Review the entire manual for completeness and accuracy.

6:40 PM **Break** 10 min

💡 Short break.

6:50 PM **Documentation for Ideathon** 45 min

💡 Focus on clarity and conciseness for your ideas.

7:35 PM **Break** 10 min

💡 Prepare for the final session.

7:45 PM **Enhance app** 45 min

💡 Implement a minor improvement or fix a small bug in the app.

Thursday, 19 March

3:00 AM **Documentation for Ideathon** 45 min

💡 CRITICAL: Focus on key details and presentation for tomorrow's deadline.

3:45 AM **Break** 10 min

💡 Stay sharp for critical tasks.

3:55 AM **Documentation for Ideathon** 45 min

💡 CRITICAL: Refine the narrative and supporting points.

4:40 AM **Break** 10 min

💡 Quick mental reset.

4:50 AM **Enhance app** 45 min

💡 Work on a significant feature or optimization.

5:35 AM **Break** 10 min

💡 Stretch your legs.

5:45 AM **Enhance app** 45 min

💡 Continue implementing improvements or new functionalities.

6:30 AM **Break** 10 min

💡 Hydrate and prepare.

6:40 AM **Read about react.js and perfect it** 45 min

💡 Practice coding a small React component or concept.

7:25 AM **Break** 10 min

💡 Short break before the next session.

7:35 AM **Read about react.js and perfect it** 45 min

💡 Deep dive into React lifecycle methods or hooks.

8:20 AM **Break** 10 min

Prepare for your morning block.

10:00 AM **Work On BPT web** 45 min

Address a specific part of the web project, e.g., backend logic.

10:45 AM **Break** 10 min

Quick mental reset.

10:55 AM **Work On BPT web** 45 min

Continue development on your web project's frontend.

11:40 AM **Break** 10 min

Stretch and refuel.

11:50 AM **EI file up-to-date** 45 min

Organize and categorize recent entries and documents.

12:35 PM **Break** 10 min

Prepare for your longer break.

3:00 PM **Documentation for Ideathon** 45 min

Final check for submission tomorrow. Polish language and clarity.

3:45 PM **Break** 10 min

Short break.

3:55 PM **Enhance app** 45 min

Test recent changes or start debugging a new feature.

4:40 PM **Break** 10 min

Stay focused.

4:50 PM **Read about react.js and perfect it** 45 min

Work through a complex React challenge or a new library.

5:35 PM **Break** 10 min

💡 Quick refresh.

5:45 PM **EI file up-to-date** 45 min

💡 Input any pending information or organize backups.

6:30 PM **Break** 10 min

💡 Wind down before your evening break.

6:40 PM **Work On BPT web** 45 min

💡 Plan next steps for the web project or research solutions.

Friday, 20 March

3:00 AM **Documentation for Ideathon** 45 min

💡 CRITICAL: Final review and submission preparation. Deadline today!

3:45 AM **Break** 10 min

💡 Quick stretch and hydration.

3:55 AM **Enhance app** 45 min

💡 Focus on a critical feature or bug fix that improves user experience.

4:40 AM **Break** 10 min

💡 Mental reset.

4:50 AM **Read about react.js and perfect it** 45 min

💡 Practice advanced React concepts or build a small project.

5:35 AM **Break** 10 min

💡 Short break.

5:45 AM **Work On BPT web** 45 min

💡 Implement a new feature or optimize existing code.

6:30 AM **Break** 10 min

💡 Prepare for the next task.

6:40 AM **EI file up-to-date** 45 min

💡 Ensure all recent information is logged and properly categorized.

7:25 AM **Break** 10 min

💡 Prepare for your morning block.

7:35 AM **Enhance app** 45 min

💡 Review overall app performance and plan for future updates.

8:20 AM **Break** 10 min

💡 Final break before the morning block.

10:00 AM **Read about react.js and perfect it** 45 min

💡 Deepen your understanding of state management patterns (Redux/Context API).

10:45 AM **Break** 10 min

💡 Grab a snack.

10:55 AM **Work On BPT web** 45 min

💡 Work on the UI/UX aspects of the web project, improving responsiveness.

11:40 AM **Break** 10 min

💡 Quick stretch.

11:50 AM **EI file up-to-date** 45 min

💡 Cross-check information for accuracy and completeness.

12:35 PM **Break** 10 min

💡 Prepare for your longer break.

3:00 PM **Enhance app** 45 min

💡 Plan next week's features or improvements based on current progress.

3:45 PM **Break** 10 min

💡 Short break.

3:55 PM **Read about react.js and perfect it** 45 min

💡 Review what you've learned this week and set goals for next week.

4:40 PM **Break** 10 min

💡 Stay focused.

4:50 PM **Work On BPT web** 45 min

💡 Document your progress and set goals for the upcoming week.

5:35 PM **Break** 10 min

💡 Quick refresh.

5:45 PM **EI file up-to-date** 45 min

💡 Do a final check of your files for the week to ensure everything is in order.

6:30 PM **Break** 10 min

💡 Wind down for the evening.

6:40 PM **Review Week's Progress / Plan Next Week** 45 min

💡 Reflect on accomplishments and plan for upcoming tasks and priorities.
